INTRODUCTION

Worklist Request is the Cerner Application used to create and print worklist for certain tests. This is primarily used for batched tests.

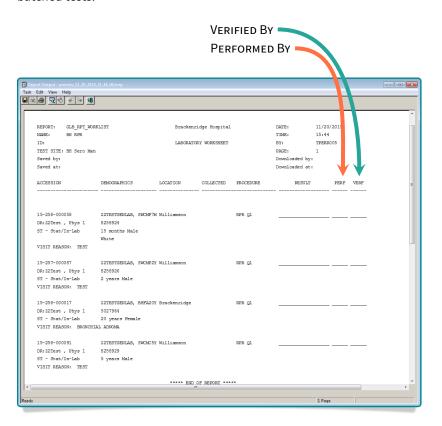

OPEN WORKLIST REQUEST by clicking the licon from the App-Bar. 1

 1 \blacksquare Refer to the APP-BAR PROCEDURE if you need help adding it.

ABOUT WORKLISTS

Worklists are an easy way to document manually entered results for batched tests.

COLUMN	Purpose
Accession	LISTS THE ACCESSIONS ON THE WORKLIST.
DEMOGRAPHICS	LISTS THE PATIENTS DEMOGRAPHICS.
SCHEDULED	LISTS THE PATIENT'S LOCATION.
LOCATION	THE PROCEDURE BEING PERFORMED.
COLLECTED	THE COLLECTION DATE AND TIME.
Procedure	THE RESULT OF THE PROCEDURE.
Perf	THE PERSON WHO PERFORMED THE TEST.
VERF	THE PERSON WHO VERIFIED THE RESULTS ARE CORRECT.

Table 1: Worklist Description

BUILDING WORKLIST

This chapter will guide you through creating a new WORKLIST for a batched test. The list will contain all of the IN-LAB samples.

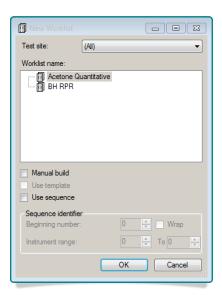

Items can be removed from the list, or moved up and down within the list.

ightharpoonup Click the New WorkList icon from the tool bar.

 \blacksquare Select the type of WORKLIST from the list.²

² It's short.

MODIFYING THE WORKLIST

Moving Items on the List

 \blacksquare *Select* the row to move.

Priority	Accession	Procedure	Name	Status	Test Site	MRN	FIN	Age
ST - Stat	15-257-000087	RPR	ZZTESTGENLAB, SWCMP2Y	In-Lab	BH Sero Man	8258926	807011986	2 Ye

PRINTING WORKLISTS

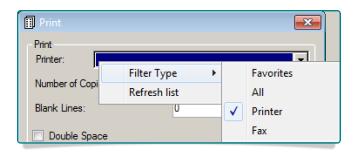

Print Worklists

Printing within WORKLIST REQUEST works differently than many of the other Cerner Applications. Worklist Request uses printers which are defined within Cerner.

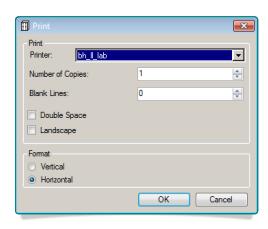

☐ Click the Print Worklist ☐ icon from the tool bar.

- ☐ Right-Click on the Printer List.
- **■** Select FILTER TYPE.
- **■** Select Printer.

 \blacksquare Select the nearest printer from the **Printer List**.

▲ WARNING: THIS PRINTER SELECTED IN THIS IMAGE MAY NOT BE A USABLE PRINTER.

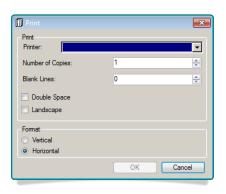

☐ Select **VERTICAL** for the format.

Creating Favorite Printers

The list of printers to choose from is exceptionally long. However, you may have noticed in the previous section there is a way to set up favorite printers.

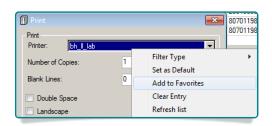

ightharpoonup Click the Print Worklist icon from the tool bar.

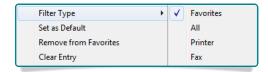

⁴ You can select REMOVE FROM FAVORITES to

remove a printer.

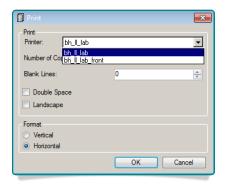

- *■* Select a printer you'd like to add to your favorites List.
- Right-Click on the PRINTER LIST.
- ☐ Select ADD TO FAVORITES.⁴

- \blacksquare Repeat for all the printer's you'd like to add.
- \blacksquare Right-Click on the PRINTER LIST.
- **■** Select FILTER TYPE.
- **■** Select FAVORITES.

Now, THE LIST of printers contain only printers you'll use.

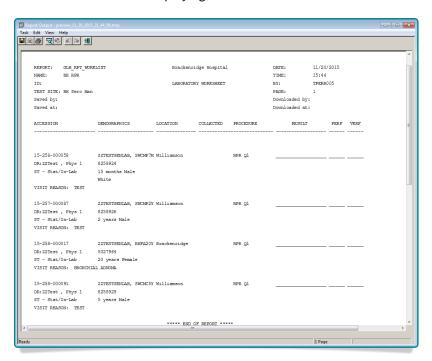

Print Preview

☐ Click the Print Preview icon from the tool bar.

☐ Select **VERTICAL** for the format.

A WINDOW WILL APPEAR displaying the worklist.

TROUBLESHOOTING

I can't find my printer!

- CHECK YOUR FILTERS: Right click on the list of printers and set the FILTER TYPE to PRINTERS.
- MAKE SURE IT EXISTS: If the printer is new, it may need to be built into Cerner. Contact Information Systems.

I'm Missing Accessions

There are a few things that can cause this:

- Accession isn't Logged in: Only In-Lab orders will appear. Simply log it in.
- ACCESSION IS ALREADY ON A LIST: If the Accession was placed on another worklist, it may not show up when trying to create new worklists.
- You REMOVED IT: If you've removed it, you can simply add it back again.
